## **Triangle Transit Statement Regarding Durham Vote on Transit Referendum**

Triangle Transit is pleased that Durham's electorate has taken a positive step to fund expanded transit options. We have been working with Durham County, the City of Durham and the Durham-Chapel Hill-Carrboro Metropolitan Planning Organization since 2008 on a plan that would expand bus service and build rail. With today's vote of confidence, we look forward to continuing the important partnership that'll be needed to move forward as we provide the most effective transportation alternatives for Durham and the Triangle's growing population.
